

## top tips for toddler led toileting

- Go nappy free at home, in the garden, 1. on the beach.
  - Read books about children using 2. toilet/potty.
- Let them see you on the loo, let them flush. Tip 3 contents of soiled nappy into toilet & let them flush.
  - Have a potty around. Role play with 4. teddy.
  - Body positive language. Wees and poos are normal and not dirty or disgusting, even if can be smelly.
  - 6. Offer potty at key times, before bath, after lunch, nappy changes. But don't over do it.

- Reassure & affirm. No need for rewards or 7. punishments. You don't for learning to walk.
- Don't withhold drinks, even at night. It is common for 5 year olds to still have a nappy at night.
- 9. Easy up/down clothes. No buttons.
  - Too many accidents? Try another 10. time.
- Poo-ing in a potty can be more challenging & happen

## a few months later than wees. Offer reassurance

Relax. Don't worry. It will happen. Try to avoid 12. getting annoyed, it can make the process longer.

> =ollow your child's lead. Every child will do it at a different age & way. It is a developmental stage.
